

ELECTROMAGNETIC LOCKS

The entire range of PADDE electromagnetic locks are CSIRO approved for use on fire doors and are characterised by their high quality, zero residual magnetism and proven reliability in both fire and security applications. Different models are available with or without monitoring to suit a variety of applications including single sliding or double doors. A weather resistant model is available for outdoor applications.

New keyed mounting system provides faster installation, better shear strength, and a safer installation.

- **Fail-safe**
Unlocks when power is removed
- **Easy Installation**
Suitable for both new and retrofit usage
- **High Holding Force**
Refer to the technical data overleaf
- **Self-Aligning**
Armature plate pivots to accommodate door drop
- **Silent Operation**
No humming or buzzing
- **Dual Voltage**
Site selectable 12 or 24 Volt DC
- **Monitored Versions**
Hall-effect status monitoring available on some models
- **Instantaneous Release**
Smart electronics on the EML6, 10,11 & 12 eliminates residual magnetism

4 - Hour Fire Rating
UL Listed
CE Compliant
